## RE: TOKEN OF APRECIATION FOR YOUR DONATION

The staff, learners and parents of Charles Duna Primary thank you for extending a helping hand towards the realization of our wish to establish a fully equipped Multi Media Lab. As a school we could not afford to install internet on the computers.

The aim is not only to introduce our learners to computer literacy but to search for information thus taking control of their own learning. The quality of their work will definitely be improved. Most of our learners never venture that much outside the township, surfing the net will expose them to a world of possibilities. With the shortage of textbooks in our school, educators will be able to look for resources and lesson plans from the internet.

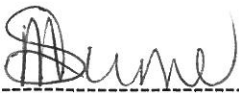

Affording the school the services of Preston has been very helpful. He helps with the maintenance of the Lab and teacher training as a result our Science teacher is now taking Grade 4 and 5s to the Lab. Science teaching and learning is becoming a fun experience for our learners. Expect more of our school's learners at NMMU!

The Grade 6 learners that took part in the Jaguar Primary School Challenge won first position. They designed their car electronically first before doing their model. The excitement of those kids just by being able to create their own car is unbelievable and winning was the cherry on top! They were exposed to power point presentation, creating a portfolio and now they are mentoring grade 4 and 5 teams for the 2017 competition.

Thank you for giving our school an opportunity to provide quality education to our learners. Currently most township students are not doing well in Matric, your intervention is giving these learners a life line.

We appreciate your support

Yours in Quality Public Education

N.M Sume (Principal)
